

BRITTA BATTAGLIA

I grew up in Bergün in the beautiful Albula Valley and spent my school years there. After completing the 10th grade in Cazis, I successfully completed an office apprenticeship at Salabim in Chur. Since passing my apprenticeship, I have continued to work at Salabim in permanent positions.

For 6 years, alongside my work at Salabim, I also completed a part-time internship in the secretariat of the Bodmer Retirement Home in Chur, which I did for vacation replacements. The experiences in the retirement home, the interaction with people, and the caregiving aspect brought me great joy. As I was looking for a new challenge, I decided to pursue further training as a hospital and medical secretary at the Migros Club School in Chur, which I successfully completed. Since I only had theoretical knowledge of this diverse and interesting field, I looked for an internship.

With great luck, I received the wonderful opportunity to do an internship at the practice of Dr. Roy Bösiger and his team. What started as an internship turned into a permanent position, which I am very happy about. I am excited for the new experiences and challenges at Dr. Roy Bösiger's practice and with his wonderful team.
