

MARGRITH SPITZ

I grew up in a sportive family in Sevelen with 3 siblings.

After completing my training as a medical practice assistant (MPA), I worked in my profession for a few months before starting a family with my husband.

I spent ten years as a housewife and wholeheartedly dedicated myself to being a mother. Our two wonderful children, Anja and Marc, are now adults. Additionally, we have had a granddaughter for 12 years. Samira brings us great joy every day and keeps us young.

In my free time, I am passionate about skiing. In the summer, I enjoy biking or appreciating nature while hiking.

Professionally, in 1999, I had the opportunity to return to my trained profession as an MPA in Dr. Gian-Reto Felix's chiropractic practice. During these 12 years, I also had the pleasure of getting to know Dr. Roy Bösiger, and especially learning to appreciate him. Our professional paths then parted after I left Dr. Felix's practice in 2011.

Later, I worked for 9 years in a physiotherapy practice, responsible for administration and coordinating patient appointments.

It is wonderful that I now have the opportunity to work again in Dr. Roy Bösiger's practice with his great team. Dr. Bösiger is a very fine, wonderful and kind boss.
