

CHRISTIN FÄHNLE

I love working with people and enjoy how diverse their personalities are, which is why it has always been important for me to work in healthcare and help others.

After completing my training as a dental assistant, I had the privilege of helping people in the field of dentistry for over 20 years. Afterward, I worked as a medical secretary until now.

I was born and raised in the Ruhr area, where I lived and worked until my move in 2023 to the Sarganserland. Here as well, I had the opportunity to gain further experience as a medical secretary.

Now, I am looking forward to many exciting encounters in the practice of Dr. Bösiger.
